Victoria Island, Lagos, 101241

## CAREER OBJECTIVE

Motivated web developer seeking to apply and expand my skills in HTML5, CSS3, JavaScript, PHP, MySQL, React, and Node.js within a growth-focused organisation. Eager to contribute to innovative projects, while gaining hands-on experience, enhancing team collaboration, and delivering practical, user-centered digital solutions that make real-world impact.

## EXPERIENCE

January 2025 – Present; **Freelancer**, Nigeria

- Conceptualised, designed, and developed a personal portfolio website using React.js, showcasing projects and design capabilities
- Gained proficiency in UI/UX design principles, including prototyping, and usability testing
- Designed the user experience and interface framework for a client's banking website, focusing on functionality, accessibility, and user-centric design
- Developed a client's functional test project using PHP, demonstrating backend development skills and integration of dynamic features

April 2023 - December, 2024; **Instructor At The Complete Computer Technology Warri**, Delta state

- Trained over 300 students in effectively using Microsoft Office Suite (Word, Excel, PowerPoint), emphasising practical applications for academic and professional use.
- Delivered comprehensive instruction in Graphic Design, specialising in CorelDRAW, Adobe Illustrator, Adobe Indesign and Adobe Photoshop, enhancing students' creative and technical skills.
- Promoted to Lead Web Development Instructor, overseeing curriculum development and mentoring students.
- Supervised student projects and coordinated presentation sessions to foster practical learning and teamwork
- Managed all in-house and external visual communication materials, including flyers, billboards, and promotional content for both the Warri branch and the head office

March 2022 – March 2023 ; **Success Super School (NYSC)**, Iloye, Ogun state

- Integrated educational technology tools to enhance lesson delivery and increase student engagement
- Collaborated with fellow educators to develop and implement comprehensive, student-centered curricula
- Created and administered assessments to monitor and evaluate student progress
- Acted as a mentor and role model, consistently demonstrating professionalism and positive behavior
- Participated in instructional planning and peer collaboration to improve teaching strategies and classroom dynamics

BOOTSTRAP

January 2021 – December 2021; **Freelance Web Designer**, Warri, Delta state

- Enforced design and visual standards to ensure brand consistency and a cohesive user experience across web projects
- Collaborated with web content editors and clients to manage and maintain website content, ensuring accuracy and functionality
- Delivered web development projects that adhered to best practices in coding and aligned with client-approved design systems and UI/UX standards

April 2019 - June 2019 ; Student Intern, **Geographic and Information System**, Umuahia, Abia state

- Utilised raster and vector tools to analyse, manage, and visualise geospatial data for planning and decision-making
- Created data visualisations—including maps, charts, and graphs using spatial points to support informed planning
- Conducted routine and scheduled maintenance on systems and equipment to ensure operational reliability

## EDUCATION

September 2019; **Bachelor Of Science (B.Sc.) In Geography and Planning**, Abia State University, Uturu, Abia State
